

- New heavy duty vehicle crossing
- Bollards x2 at each end of path (125x125x800 H5 piling timber)
- 1.2m between - Arris all edges of timber
- New path links across to road edge and existing coastal path
- New mounding 3.0w x 0.5h maximum height. Plant with Phormium cookianum (coastal flax) and Coprosma repens (taupata)
- Old footpath removed (1200). See notes for mulching and planting
- New asphalt path - 1.8m wide, moved off the edge of the road in alignment with the south coast policy of using the natural informality of the coastal area
- Access narrowed to 6m with new gravels
- Low mounds to 0.5m high
- Area regrassed, no shrub or tree planting
- Old wharf timbers
- Large rocks - 600x600 minimum
- Picnic table (2) bolted to concrete slab See detail DL-02
- Informal parking area
- Maintenance strip blocked off at each end to divert pedestrians into the site
- Maintenance mowing access point

NOTE: Rock sizes based on 600mm or larger
Gaps between based on max 1.5m
